

STOP WORK AUTHORITY POLICY

HM United Contracting Co. is committed in protecting its employees, other interested parties and the environment that were exposed to hazards and significant impacts from its operation at project sites, facilities and camps. Each employee and other interested parties are responsible for contributing to a safe and healthy workplace and protecting the environment.

This policy applies and should be communicated to all persons working under the control of HM United Contracting Co.

The policy grants all persons on project sites, facilities and camps the Right, Obligation, Authority and Responsibility to Stop any Work or Actions that are unsafe to personnel, equipment, or that can damage the environment because our culture does not tolerate unsafe acts and conditions. Everyone is expected to follow the established Health, Safety and Environmental policies and shall report any hazards and significant impacts that could result in personnel injury, property damage and environmental degradation.

Dr. Hassan Mohamed
Vice President
